

## Submission Guideline

ALICE Magazine does take submissions. Please keep the following things in mind if you want to submit to us:

### FASHION EDITORIALS:

- Casting is the most important thing at ALICE. We are not just looking for models, we are looking for art inside people. Our editorials are based off of inspiration taken from music and chic, intellectual perversion.
- You need to have at least 6 looks with a sharp, chic edge.
- Please send us small jpegs. If we accept your story we will write you and let you know what size we need for the layout.
- Images need to be exclusive to ALICE Magazine and not published anywhere before, including your personal website and social media.
- Please ensure your stylist has accurate credits.

### BANDS

- If you're in a band and you would like for us to feature you, send us your bio, photos and a video or two so we can check you out.

### BAND PHOTOGRAPHY:

- Please send us photos and a video or mp3 of the band you'd like to shoot for ALICE so we can approve them before you shoot.
- We love all kinds of music but the bands image and music has to fit our aesthetic. We love photographers who love live shows! So it can either be a portrait situation with the band or the band on stage.

### WRITING CONTRIBUTIONS:

- Our writing is similar to our photography. Beautiful, poetic and raw. We are always looking for writers to interview bands and to write stories, particularly about music, fashion and anything strange and defiant. Send us 3 to 5 of your best work or a link to your website.
